

Pursuant FOIA, I am requesting an electronic copy of the document(s) which would have been provided to President Obama or Designees as described below:

The “internal” electronic document which would have been (i.e. past tense) determined as the final version (i.e. most accurate) electronic document having these characteristics (A) details the division of duties and responsibilities of one or more United States governmental entities (i.e. Executive, Judicial, and Legislative branches including their respective subunits) and their individual Commission(s) and advisory bodies (or other designated bodies generally perceived by the public as being comparable to Commissions or advisory bodies), and (B) the hierarchical relationships (i.e. direct and indirect) amongst the bodies identified in (A) above. I am expressly requesting that document which “most completely” meets the requirements of both, (A) and (B) above. As used here, “most completely” details the requested information for the greatest number of governmental entities (e.g. 5 federal departments is “more complete” than 2 federal departments...A document listing all governmental entities is the sought after “most complete” document). This “internal” document may not be in a format for the general public’s consumption plus I would expect it to be at a high level (e.g. 30,000 feet) enabling the U.S. President to readily grasp and understand the government he/she is mandated by the United States Constitution to manage and/or cooperate with others. I understand this request may be comprised of one or more electronic documents in lieu of the single document. It is important to note I understand this document would have been considered a baseline from which the Obama administration would begin to implement changes (e.g. phased) throughout President Obama’s administration(s). FYI, The President’s annual budget or portions thereof which is intended to be presented to Congress does not meet the requirements of this FOIA request and is not the document being requested herein. The President’s annual budgets may not even be consistent with the FOIA requested document herein due to a planned “phase-in” of desired changes. These electronic documents may have been prepared by another tax-exempt organization and be retained in the United States government files.

It is important to exercise caution to NOT “nit-pick” this FOIA request as I believe I have been sufficiently detailed enabling a seasoned administrator to understand the scope of my request. As used herein, to “nit-pick” is an available weapon in an arsenal which can be selected by any **Reviewer** of this FOIA request with the intent to prevent disclosure of the requested information. In the event I have reason to suspect “nit-picking” occurred, I will submit a subsequent FOIA request to identify every **Reviewer’s** communications in response to this specific FOIA request. Please accept that I have only written the preceding three sentences because I do not know the predisposition of the **Reviewers** of this FOIA request. I should be contacted via REPLY to this email as I do not answer incoming telephone calls from people not listed in my cell phone’s Address Book. Thanks.

Charles Driggers
